

Epson EB-4650

DATASHEET

The 5,200-lumen installation projector, with XGA resolution, for bright, clear images.

The EB-4650 is the XGA installation projector that offers bright, clear images, and high-end, easy-to-use features. Epson's 3LCD projector technology, and an equally high White and Colour Light Output of 5,200 lumens, ensure your important presentations are displayed with vivid, realistic colours that can be shown in a variety of ambient light levels.

The EB-4650 boasts high definition picture quality and a 5,000:1 contrast ratio. This helps showcase your important presentations and other projections in the best possible way.

Thanks to a variety of user-friendly installation features, this projector is easy to set up and use. Its x2.0 wide zoom ratio, as well as keystone correction, and arc and point correction, make it quick and easy to set up in a variety of positions without picture blurring or distortion.

With the HDMI input and Display Port, you can connect a variety of high definition devices to project your content effortlessly. In addition, the lamp and filter are easy to replace, helping keep maintenance straightforward and ensuring your projections are as bright and clear as possible.

While presenting, the side-by-side split screen function allows you present from two different sources, such as a separate laptop, for much more in-depth and impressive presentations.
