Product View

LED Lamp Life

LED Light Source

Images appear brighter and more vibrant thanks to the exceptional color saturation provided by the LED source, known as the Helmholtz-Kohlrausch effect. Enjoy long-lasting and consistent brightness with an LED light source, which has 5x less brightness decay than a lamp-based model.

Wireless Projection

Wireless Projection - Screen Mirroring Support

Paring with Acer wireless dongle, you will be able to skip the cable and project from your smartphone, laptop or PC via wireless signal. It allows quick and seamless screen-mirroring without installing extra app. Windows 10 laptop/PC has built-in ability for Miracast, so your presentation can be as easy as click-and-play.

360 degree projection

360-degree Projection

Projector can be rotated 360 degrees in different direction for positioning flexibility. It enables special projection for exhibition or show room that requires projector not only supporting front angle.

Multimedia Reader

Multimedia playback

Show videos, photos, PDF documents and more from your personal USB drive with PC-free projection. The multimedia reader enhances the mobility for you to "take and go".
