celexon - your specialist
for home cinema and AV solutions

PRODUCT DESCRIPTION

Experience the world of 3D projection. The celexon G1000 DLP 3D glasses are compatible with any 3D DLP projectors and they support all shutter frequencies up to 144Hz. They are 100% compatible with all projectors that have the DLP 3D ready logo and support the DLP 3D Link technology.

Thanks to the DLP Link technology, no IR emitter is required and the glasses automatically synchronise via the built-in sensor.

They are comfortable to wear, even over a longer period, due to their light weight.

DLP 3D shutter glasses G1000
