

High quality home entertainment experience for everyone

Discover the ideal projector for your big screen, home entertainment needs. Each of our projectors delivers crisp, sharp images in Full HD, whether you're kitting out a home cinema or simply a living room. From watching movies to gaming, catching the latest sporting events and viewing in 2D or 3D, you're sure to find a projector to suit. Sit back and immerse yourself in the experience from the very start with our easy to install, simple to use projectors.

EH-TW6700 and EH-TW6700W

Full HD 1080p 2D and 3D technology
Colour Light Output of 3,000 lumens
70,000:1 contrast ratio for deep blacks
WirelessHD connection¹ (EH-TW6700W only)
Enhanced Super Resolution in 2D and 3D mode
Wide vertical and horizontal lens shift range
Frame interpolation and image enhancement
Watch a movie with the big screen experience every day for the next seven years thanks to a long lamp life²

EH-TW6700 shown

EH-TW6800

Full HD 1080p 2D and 3D technology
Colour Light Output of 2,700 lumens
120,000:1 contrast ratio for deep blacks
100% sRGB support
Frame interpolation and image enhancement
Wide vertical and horizontal lens shift
Watch a movie with the big screen experience every day for the next seven years thanks to a long lamp life²
ISF calibration

EH-TW5350

Full HD 1080p 2D and 3D technology
Colour Light Output of 2,200 lumens
35,000:1 contrast ratio for deep blacks
Horizontal and vertical keystone correction
Frame interpolation and image enhancement
Miracast⁵ connectivity allows easy wireless movie streaming from compatible smart devices
Watch a movie with the big screen experience every day for the next eleven years thanks to a long lamp life²

EH-TW5300

Full HD 1080p 2D and 3D technology
Colour Light Output of 2,200 lumens
35,000:1 contrast ratio for deep blacks
Horizontal and vertical keystone correction
Frame interpolation and image enhancement
Large screen size — up to 300 inches
Watch a movie with the big screen experience every day for the next eleven years thanks to a long lamp life²

EH-TW5210

Full HD 1080p 2D and 3D technology
Colour Light Output of 2,200 lumens
30,000:1 contrast ratio for deep blacks
Horizontal and vertical keystone correction
Frame interpolation and image enhancement
Large screen size — up to 300 inches
Watch a movie with the big screen experience every day for the next eleven years thanks to a long lamp life²

Brighter, vivid projection

White brightness alone cannot bring the true colours you see everyday to life. That's why the 3LCD technology found in Epson's projectors delivers an equally high White and Colour Light Output (CLO). Why settle for a dull, washed out and lifeless screen? Experience vivid and lifelike images with Epson's projectors that offer a colour brightness that matches the white light brightness.

TRUE COLOURS

Enjoy up to 11 years of entertainment²

With up to 7,500 hours lifetime on the lamps, you could watch a movie every day for the next eleven years² without having to replace them. Epson projectors are known for their reliability, so you don't have to worry about missing a minute of your favourite film, game or programme.

Smoother fast-moving action in bright and vivid Full HD

Providing more fluid action images and reducing motion blur in fast-moving scenes, frame interpolation technology inserts new frames between the original ones. As a result, blurring is suppressed and moving images look much smoother and sharper.

Perfect images every time

We think that setting up a projector should be simple. As such, our projectors are easy to place just about anywhere. Have a perfectly adjusted image in seconds; with our optical zoom, vertical and horizontal lens shift⁷ and keystone correction, you're sure to find our projectors are quick and easy to set up. You can experience a 100 inch (254cm) widescreen display from just three metres away with any blank wall or screen.

Total clarity in all lighting conditions

Lighting conditions can often change during a film, so it's essential for your projector to keep up with the varying contrast levels, to continually deliver the best image. Our auto-iris feature compensates for this by automatically adjusting the aperture to give optimum contrast and brightness in every scene, whether light or dark.

Lower contrast ratio projector

EH-TW6700 Series

Set the scene

Make your home centre stage for all the action with Epson's home projectors. Transform the everyday, whether you're catching your favourite sports, watching a classic movie, streaming a breaking box set, or playing the latest game; make it a truly unforgettable experience with a larger-than-life projected image. You can capture everyone's attention and bring family and friends together to experience those memorable moments.

¹WirelessHD function is available across the 28 members of the EU in addition to Iceland, Norway, Saudi Arabia, Switzerland, Turkey and United Arab Emirates. Subject to change. Please contact your local Epson sales office for individual market availability. ²Based on a film length of 105 mins when the projector is in eco mode. ³Optional wireless LAN unit required. ⁴36 months or 3,000 hrs, whichever comes first. ⁵Miracast™ available on selected devices supporting Android 4.2+ and Microsoft Windows 8.1+. ⁶MHL connectivity only for Android devices. To check the compatibility of your devices, visit www.mhlconsortium.org. ⁷EH-TW6700, EH-TW6700W and EH-TW6800 only. ⁸Colour brightness (Colour Light Output) measured in accordance with IDMS 15.4. Colour brightness will vary depending on usage conditions. Leading Epson 3LCD projectors in the home entertainment segment (720p and 1080p) compared to leading one-chip DLP projectors, based on NPD data for June 2013 through May 2014. For more information please visit www.epson.eu/clo. ⁹Survey conducted by Future Source Consulting Limited for the period from 2001 to 2015.
